

IMSI (India) Pvt. Ltd

Profile

IMSI is a management consulting firm. It helps companies meet their project objectives and improve the processes and systems they use to manage projects.

Overview

■ IMSI

- Internationally since 1985; 300+ full time employees
- Offices in Gurgaon and Dehra Dun
- Overseas offices in USA (corporate), England, and Germany
- Resident staff of technical experts; library of materials and systems

Services

■ Master Staffing Partner

- Single point of contact for company.
- Responsible for collecting internal requirements & external sourcing.
- Streamlined quality process and timeliness of candidates selected and hired.
- Better match between position specifications/descriptions and candidates.
- Potential candidates appreciate single source, clear communication and quick response.

■ Project Staffing to support strategic client projects when and where required. Trained, experienced professionals meet requirements for:

- Project managers, planners, coordinators, and estimators
- Systems engineers
- Applications developers, analysts
- Facilitators, technical writers

■ Consulting to reengineer and streamline how client projects are managed. Experienced consultants design and implement:

- Business processes for planning, managing, and completing work
- Planning methods and systems for modeling project performance
- Training plans to develop organizations

■ Systems to provide client project teams with essential information using the best of:

- Existing in-house client systems
- Commercial project management software
- Other essential project controls and websites in IMSI's PMbase™ and PMnet™

■ Training to equip client teams to execute projects as planned. Experienced planners and managers provide training for:

- Project management processes, methods, and systems
- Project Management Professional (PMP) exam preparation

■ BPO/Call Centers/PMO Support to provide complete, full service support on strategic client projects consisting of all or some of the above services:
